Maine Manufacturing LLC earns ISO 9001:2008 Certification

Sanford, (ME) August 26, 2010 — Maine Manufacturing LLC of Sanford, Maine is pleased to announce its achievement of ISO 9001:2008 certification.

"This certification positions us well for growth in our market," Maine Manufacturing Director of Quality Management, Rob Wilder, explained Thursday. He went on to say, " with a tremendous amount of work by our entire team, we have been able to complete our ISO registration in record time."

Receiving ISO certification ensures that a company is well run, has procedures to monitor all processes and will take adequate steps to ensure continual improvement.

Maine Manufacturing, produces filtration and custom laboratory products for the international medical and laboratory diagnostic community. The company continues to expand adding 90 employees since January.
